

What's the best part about being an Impacter?

“

Being an Impacter is about more than just being a graduate at UniCredit, it goes beyond the job and the challenges, it's about the amazing people that become your closest friends and the community that you become a part of.

”

Andrea

“

Developing a great network and direct contact with top managers, and having the opportunity to be involved in special and different projects.

”

Henri

“

The best thing I have learned during my path as an Impacter is how important is to cooperate, listen and exchange ideas between each other.

It does not matter how young, expert, new, old you are, you have not to forget that your ideas matter.

Each of us is a needed piece of the final puzzle!

”

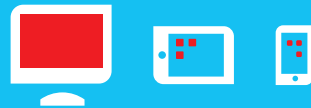

Elisa

“

The best part of being an Impacter for me is the chance to meet a huge number of professionals from completely different domains and to understand the complexity of the financial industry from within.

”

Francesco
