**Agreement on a module** is a prerequisite for ordering this product. If you do not make your own selection, "Transaction module 50" will be considered to be agreed upon account opening. The price is charged monthly when the account is balanced. You may switch your transaction model at any time; the price of the new model shall then apply retroactively as of the start of the account balancing period during which the switch is requested.

A **paperless transaction** is any transaction that provides or transfers an amount of money placed via HVB Online Banking or other electronic access channels / products (e.g. UC eBanking global, StarMoney Business-HypoVereinsbank Edition), in particular including / comprising outgoing or incoming payments (e.g. remittance and crediting of credit transfers, direct debit initiation and debiting). All instant credit transfers placed via HVB Online Banking are classified as paperless transactions. This does not apply to instant credit transfers placed via other electronic access channels / products; these instant credit transfers are subject to separately agreed remote data transmission prices. In case of non-price-regulated Sepa payments and Non-Sepa payments, an additional processing commission (foreign trade fee) will be charged.
